

About GCC School

1. What is GCC School?

GCC School is the world's first specialised institution dedicated to preparing future leaders for a new tomorrow. It is designed for young aspiring professionals (YAPs) who want to build global careers in finance, analytics, and business operations.

2. What problem does GCC School solve?

Most graduates have strong academic credentials, but limited exposure to real corporate workflows. GCC School bridges this gap by blending applied learning, global exposure, and industry readiness. This ensures you aren't just qualified, but employable from day one.

3. Why is GCC School different from traditional colleges or institutes?

Unlike traditional models, GCC School starts with your career goal, not your syllabus.

We focus on:

- Employment alignment before training
- Real GCC exposure and professional internships
- Industry-driven curriculum co-created with consulting firms and MNCs
- Corporate-style learning environments that simulate real workplaces

About GCC (Global Capability Centres)

4. What are Global Capability Centres (GCCs)?

GCCs are global hubs set up by multinational corporations to manage high-value business services. These include finance, analytics, risk, and consulting, supporting global operations from India and beyond.

5. What is the role of GCC in the growth of India?

India is the world's GCC capital. It is home to over 1,700 GCCs, employing more than 26 million professionals. This number is expected to triple to 6,000+ centres within the next few years. For ambitious professionals, GCCs represent the fastest-growing path to international business careers without leaving the country.

6. What type of work happens in GCCs?

GCCs drive global business operations, from finance and compliance to analytics, consulting, and decision-making. You don't just support business here, you own business outcomes.

7. What is an end-to-end ownership model in GCCs?

In this model, GCC teams manage complete business processes, not just backend support. Currently, 44% of GCCs in India operate on this ownership model, offering tremendous opportunities for skilled professionals with global acumen.

Why GCC School is Needed

8. Why are most graduates not GCC-ready?

Most graduates enter the workforce with strong theoretical knowledge but lack real-world application, workflow understanding, and corporate readiness. They know the "what" but not the "how" of global business.

9. How does GCC School address this gap?

GCC School integrates global qualifications, live industry projects, and corporate internships to develop hands-on capabilities. You learn directly within a simulated GCC environment mentored by industry leaders and supported by global consulting partners.

Campus & Infrastructure

10. Where is the GCC School campus located?

Our flagship campus is located in Cyber City, Gurugram, the nucleus of India's GCC industry. Studying here means gaining industry exposure on an international scale.

11. What facilities are available on campus?

Our campus replicates a real corporate workplace, featuring:

- Corporate-style classrooms and boardrooms
- A digital open library
- Modern workstation zones
- Cafeteria and recreation spaces
- Media studio and auditorium
- HBT exam centre for professional certifications

12. What is the Corporate Classroom concept?

Every learning space mirrors the look, feel, and rhythm of a real corporate environment. It helps students seamlessly transition from campus to company.

13. Are there industry interactions on campus?

Yes. You'll learn directly from business leaders through regular sessions, masterclasses, and on-campus hiring drives.

14. Is transport available for students?

Yes. A dedicated GCC shuttle service operates across Cyber City (Gurugram) for convenient access.

15. Is the campus easily accessible?

Absolutely. Located in the heart of Gurugram, the campus is well connected by metro, airport, and major road networks.

Program Philosophy & Model

16. What does “World’s First GCC Focused School” mean?

It means everything we do, from curriculum design to internships and placements, is tailored for roles within GCCs. We don’t just prepare graduates; we prepare global professionals.

17. What is the Hire and Train model?

It’s a revolutionary approach where employment alignment happens before training. You’re matched with real GCC career opportunities first, then trained specifically for those roles, ensuring focused, job-ready learning.

18. What does “Get Hired First, Then Trained” mean?

It means clarity replaces uncertainty. Instead of waiting till graduation to discover your career path, you begin your journey aligned with real employers and real roles.

Program Journey & Learning Experience

19. What is the overall program journey?

The journey includes three stages: career alignment, integrated learning, and real industry exposure. You evolve from a learner to a professional within a live GCC ecosystem.

20. Where does learning take place?

All learning are conducted at our campus in Cyber City, Gurugram (Haryana).

21. Who conducts the learning sessions?

Sessions are led by subject matter experts, industry mentors, and professionals who bring real-world GCC insights directly into the classroom.

22. Is there internship exposure during the program?

Yes, you'll undergo continuous GCC internship exposure. It aligns with real business cycles, ensuring you graduate with both experience and confidence.

23. Are physical masterclasses included?

Yes. We host in-person masterclasses with global industry leaders to give you firsthand exposure to corporate expectations and best practices.

Integrated GCC Program – Credentials & Outcomes

24. What credentials does the GCC School program offer?

We offer an integrated global curriculum combining:

- ACCA Qualification – Powered by KC GlobEd
- AICTE-approved post-graduate certificate in management (public accounting)
- British Council English for Work [Certification]
- One Year of Work Experience – 6 months on campus + 6 months in industry with a monthly stipend

25. Is the MSc mandatory?

No, it's optional. You can pursue it for international progression based on eligibility and preference.

Work Experience & Internship

26. What kind of work experience is included?

You'll gain one full year of professional exposure:

- 6 months of on-campus corporate training
- 6 months in-office industry training with real GCC teams

27. Is a stipend provided?

Yes. During your in-office industry training, you receive a monthly stipend because you'll be contributing to live projects.

Education Loan & Financial Support

28. Is education loan support available?

Yes. GCC School offers structured education loan assistance to make quality global education financially accessible.

29. Which banks are partnered?

We have collaborations with Bajaj Finserv and HDFC Bank to offer student-friendly loan options.

30. What assistance is provided for loans?

Our support team guides you through every step: documentation, application, and approval to ensure a smooth and stress-free process.

Device & Technology Policy

31. Does GCC School provide laptops?

We follow a Bring Your Own Device (BYOD) policy, promoting personal responsibility and digital fluency.

32. Is support available for a laptop purchase?

We provide HP/Dell laptops with student-specific configurations, unbeatable discounts, and hands-on assistance.

NFET – Entrance Test

33. What is NFET?

NFET (National Finance Entrance Test) is GCC School's official entrance test. It is a secure, home-based online assessment designed to identify talent with potential for global business careers.

34. What is the NFET application fee?

We charge an application fee of INR 2,500 with applicable GST.

35. Are there any starter kits or hidden costs?

No hidden costs, no surprises. Transparency is part of our policy.

36. Is the NFET test home-based?

Yes. You can take it online from anywhere in the world with secure monitoring.

Application Timeline

37. From when will the entrance exam applications become available?

Entrance exam applications will be available from February.

38. When does the digital kit become available?

The digital kit will be delivered after you qualify for your role.

39. When are the entrance tests conducted?

Entrance tests will be conducted between February 22nd and March 31st in different slots.

40. When does pre-onboarding begin?

The pre-onboarding commences from 25th June 2026 onwards.

41. When does the cohort commence?

Cohort commences from 1st July 2026.

Office & Campus Addresses

42. What is the corporate office address?

4th Floor, Vipul Plaza, 419–20, Golf Course Road, Suncity, Sector 54, Gurugram, Haryana - 122002

43. What is the campus address?

16th Floor, Tower-B, DLF Building No. 09, DLF Cyber City, Gurugram, Haryana - 122002
